Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.138(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 25 January 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5, 13, 23-26 are rejected under 35 U.S.C. 102(b) as being anticipated by Beller (WO 9608227). Beller discloses a syringe to syringe mixing apparatus comprising an elongate body 3, nozzles 33, 34, 35 having a mixing chamber 30 there between, a first syringe 1, a second syringe 2 that are received in the elongate body. Beller discloses a flow modifying element 4.

Claim Rejections - 35 USC § 103

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Beller. Claim 7 differs from Beller in calling for the first flow area to be about five times greater than the second flow area. Where the only difference between the prior art and the claims was a recitation of relative dimensions of the claimed device and a device having the claimed relative dimensions

Art Unit: 3763

would not perform differently than the prior art device, the claimed device was not patentably distinct from the prior art device. See MPEP 2144.04.

5. Claims 18-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Beller in view of Lake (US 6062722). Claims 18-22 differ from Beller in calling for a sealed orifice in communication with the passageway. Lake teaches a fluid mixing device comprising a first syringe 12 and a second syringe 14 having a mixing chamber 16 there between and a sealed orifice 26 to add fluid into the mixing passageway to be mixed and to prevent fluid from unintentionally flowing out of chamber after it has been added through the orifice (Col. 3, lines 49-53). Therefore, it would have been obvious to one of ordinary skill in the art at the time of invention to modify the device of Beller to include a self sealing orifice as taught by Lake so that fluid can be added to the mixing chamber and the mixing process can continue.

Response to Arguments

6. Applicant's arguments with respect to claims 1, 23 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
